Head Office in Schömberg, Zollernalb Area.

LINDNER at your service since 1947 – over 65 years of experience for the best possible storing solutions for collections worldwide.

OUR MISSION...

As a collector of stamps, coins, medals, banknotes and other objects you have taken on the rewarding task of safeguarding objects that may have monetary, personal or cultural significance. Through this you are documenting the present and the past in a very special format.

At LINDNER we have made it our primary mission to support you in your passion with our collecting systems. Whether your passion is to collect objects to preserve or enhance the value, or to research and develop a collecting theme, the presentation and storage of your collection is a fundamental part of your passion. The LINDNER product portfolio offers a wide range of possibilities and essential accessories to aid you in your hobby.

OUR COMPANY...

In 1947 August Lindner began to develop products for collectors and over the following years continued to expand these. What began as a small company with only few products and co-workers has developed into a mid-sized global business with a considerable product range and variety; committed to upholding tradition and also innovating new ideas. The first coin album available in Germany is still a treasured LINDNER product to this very day. The hingeless (falzlos) system, the T-products and last but not least, the LINDNER coin boxes, are all inventions “Made by LINDNER” which have found their place in the world of collecting. The continual enhancing of the portfolio by working together with collectors and dealers a-like, has made LINDNER a household name in collector’s circles.

In 2006, just about 60 YEARS after the company’s founding, the families 4th generation took over the management of the LINDNER business and is now leading this internationally established enterprise in its unchanged title. Our primary commitment remains offering high-quality, safe, beautiful and practical conservation of collector’s objects. Since its founding, the company’s office is in Schömberg near Balingen in the Zollernalbkreis. Through a network of both domestic and foreign dealers and distributors, we are represented nationally and internationally, enabling us to offer our products worldwide.

OUR QUALITY...

Our principal goal to support you in your collector’s passion is assured through our high quality standards. We see quality control in production and deliveries as a responsibility and self-evident. A large portion of our products are still either self-produced or manufactured in German and European companies, which guarantees us a fast and efficient access to product and quality control. If nothing less, the quality standard of LINDNER is convincing worldwide in function, workmanship and design.

OUR SERVICE...

Our high quality standards of control extend themselves into our after-sales service and our experienced advisory service. This applies equally for our advisory teams in our main office in Schömberg, as well as for our representatives worldwide. Through a long established collaboration with our sales partners we are now represented in 100 countries of the world.

LINDNER COIN BOXES

The LINDNER coin boxes are easy to handle and the large selection provides flexibility for every coin collector. Coin collectors who already use the Coin Box System know that years of experience helped develop and improve this exceptional product line to satisfy the wishes of every coin collector and to provide individual storage solutions.

LINDNER coin boxes offer many possibilities and varieties for storage. The unique stacking system allows you to select from 3 different heights of the boxes and from over 80 different configurations to hold small, large, thick and thin coins; as well as capsules and coin holders. Choose from 4 different carrying cases to protect your coin or collection boxes.

All materials used in the manufacturing process of the LINDNER coin boxes have been subjected to rigorous tests. The plastic frame is scratch-resistant to ensure long-term usage and to maintain attractive appearance. LINDNER coin boxes are practical, versatile, safe, and attractive!

Years ago, LINDNER developed the perfect Coin Box System with the help of coin specialists and coin collectors. To ensure that you have purchased an original, high quality LINDNER Coin Box, **look for the "LINDNER" logo on the top of the tray pull handle.**

The LINDNER Coin Box System can be expanded without limits. The boxes are stackable, sturdy, fit into most safes and match almost any decor. LINDNER offers a variety of practical accessories which – in combination with the coin boxes – provide a successful and safe storage solution for all your coins, medals, and banknotes.

CHASSIS

THE MATCHING FRAME FOR YOUR COINS

Our CHASSIS frame is truly an innovative product and provides numerous possibilities to display any of your LINDNER Coin Boxes. It is so easy to use: Simply remove the inside tray of the frame and place the selected Coin Box unit you wish to display into the tray. Slide the filled tray back into the frame - that's it! Now you can decide whether you hang the frame on the wall or use it as a free-standing frame and place it on your favorite piece of furniture. The enclosed metal rods/pins come in two different lengths and are easily screwed into the back of the frame. The Chassis frame can be displayed vertically, horizontally, upright, lying down - the choice is yours.

The Coin Boxes can be changed quickly so you can constantly rotate different collections. CHASSIS is available in two different colors: "Rosewood" or "Matte Black".

DOUBLE-COIN BOXES

HEIGHT 30 mm – ROOM FOR THE "LARGE" AND THE "THICK"

The LINDNER double-coin box offers more options for the coin and medal collector. The drawer has a height of 22 mm to store and protect especially large and thick coins. LINDNER coin boxes, d-boxes, and collection boxes can be mixed and stacked on top of each other. Only the height of each box is different!

COIN CAPSULES FOR COINS Ø 16 - 51 mm

More safety and flexibility with coin capsules: Additional protection for all your coins against environmental influences, finger prints, dirt, skin oil, and moisture! Two capsule sizes offer maximum flexibility by holding coins from 16 up to 51 mm. Every capsule contains a red insert

consisting of several concentric rings. The number of rings of the inserts can be adjusted to accommodate the coin. Multiple coin sizes can be kept in one coin box. The capsules come in red or wine-red, matching the velour insert of our "Standard" or "Smoked Glass" coin boxes.

INSERTS FOR COINS OR CAPSULES UP TO Ø 62 mm

Small coins, large coins, or coins in capsules - there are almost no limits with "Flexi-System"! All that's needed are two sizes of coin boxes and almost any size coin or capsule will fit with the help of "Flexi-System" inserts! The inserts come in two sizes and offer maximum flexibility for items up to 62 mm in diameter. Handling is simple and

easy. Place coin or capsule on top of the rings of the insert. All rings not required are removed by turning the rings a few times until they become disconnected. To provide optimum fit for odd sizes, the rings may be altered by cutting into the inner ring in two places. This is an ideal system for coins and capsules of all sizes.

COIN CAPSULES FOR COINS Ø 14 - 34 mm

Choose coin capsules for your valuable coin collection. The special scratch-resistant surface offers maximum protection as well as a "crystal clear" view of the coin. 45 different sizes are available to hold coins from 14 mm up to 50 mm Ø. Each capsule has the mm size printed on the edge for easy reordering.

OCTO COIN CAPSULES

FOR COINS Ø 14 - 41 mm

OCTO Coin Capsules
Dimensions: 50 x 50 mm

COINS OF DIFFERENT SIZES IN ONE COLLECTION SYSTEM

From Pennies to gold coins – all in one system. This is a collecting and presentation system in order to protect coins of different diameters in coin capsules and at the same time present them elegantly in coin boxes, coin cases or coin pages. One "Coin Octo" consists of an octagonal distance disc made of high quality Plexiglas with an outside measurement of 50 x 50 mm and a corresponding LINDNER coin capsule. The distance disc has to be placed

between the bottom and lid of the corresponding coin capsule. By this the different coin diameters are evened out. The LINDNER coin capsules are extremely scratch resistant and provide the perfect protection and a crystal clear view of your coins.

NERA SERIES

**FOR STORING COINS AND OTHER
TREASURES IN A NEW DESIGN.**

Timeless elegance, a clear design, versatility, functionality and most of all, a special touch - these are the distinguished features of our NERA series.

The grained structure of the material in conjunction with the crème colored stitching grants this series its individual character. The graphite colored and padded lining of the lid of each NERA case provides an attractive contrast to the inserts and your coins. With the many different sizes and different color inserts available, the NERA series is the perfect choice for single coins or a complete collection, leaving nothing to be desired.

SOLID WOOD CASE CARUS

COMPACT YET LOTS OF SPACE –
PURE WOOD CASE WITH 4 TRAYS
AND DARK RED VELOUR COIN INSERTS.

Pure wood – for LINDNER this means: authentic wood in a perfect, dark stained finish. The surface is very smooth and shows the natural grain of the wood. The wood trays inside have two indentations – one on each side – to remove or fill the trays more easily. Two durable latches are not only functional but also enhance the appearance of the coin case.

External measurements: 323 x 263 x 61 mm

MULTI COLLECT

VERSATILE COLLECTING WITH OUR MULTI-TALENTED SYSTEM.

Versatile collecting with our multi-purpose album system. This Album rightly deserves its name – every collector can find a large assortment of pages with a wide variety of pocket sizes which cater to different types of collections.

Whether you collect stamps, sheetlets, FDCs, ETBs, year books, booklets, postcards, banknotes, coins or phone cards: Our Multi Collect System has a place for everything! The typical 4-ring mechanism of the padded Multi Collect System guarantees a easy handling, and the ring binder Multi Collect and PUBLICA M impress with a large capacity. A plastic window on the spine provides space for identification labels/description of contents. We offer ring binders which differ in size, color, and storage capacity.

For matching ring binders and ready-to-use albums please see pages 38-40.

MULTI COLLECT PAGES

The **one-sided**, crystal clear Multi Collect pages made of softener and acid-free hard PVC foil. You can view front and back of the items that are placed in these pages.

The **double-sided**, black Multi Collect pages are made of archival safe Hard PVC that is free of acids and chemical softeners to ensure long term preservation and presentation.

Our crystal clear coin pages provide neat and safe storage of your coin collection. Simply remove the plastic strip from the page and insert the coins in the individual compartments. Once it is filled, insert the strip back into the page – that's it! The pages are easily removed, added, or changed.

Multi Collect pages are approx. 210 x 255 mm
Coin pages are a bit smaller – approx. 202 x 252 mm

Digital Solar Caliper

High-quality, digital measuring device made of a carbon fiber compound, with versatile functions and an LCD display. Can be set to zero position at any time, allowing for differential measuring. Includes feature for measuring depth and internal diameters. Can switch from metric to imperial system. Batteries included.

The carbon fiber compound material guarantees precise and gentle measuring of coins and other objects.

Measuring is possible at any given time, thanks to two energy sources. When the brightness exceeds 200 LUX, the solar cell provides the display with power. When brightness is less than 200 LUX, a 3 Volt Battery supplies the energy.

Technical data:

Measuring scope: 0-150 mm, 6"

Precision: +/- 0,2 mm, +/-0,01"

Measuring units: 0,1 mm, 0,01"

For a gentle and hygienic cleaning of coins, watches, jewellery, glasses, CDs, razor heads, silverware, dentures and much more through ultrasound waves. Ultrasound produces the smallest of pressure waves which create millions of tiny air bubbles inside the cleaning fluid. As these bubbles burst, surfaces are cleaned absolutely thoroughly and even dirt in the most narrow of corners is entirely removed and absorbed by the cleaning agent.

LINDNER-T SYSTEM

Each page of the LINDNER-T system consists of a PERMAPHIL card page and a PVC foil sheet which is fixed on the left side. The foil sheets are acid and softener free. Countless appraisals of independent institutes have confirmed this, and ensure these pages offer the optimum protection of your stamps. Our foil sheets offer many variations with different heights and insert widths for you to choose from.

The stamps are placed inside the sheet strips and are protected on both sides by the sheet pockets. The high quality foil allows for a transparent view of your stamps. The gentle clamp effect of the sheet seam, which is produced in a special sheet welding procedure, ensures that the stamp stays on the allocated spot and does not move. The sheet foil is tightly attached to the left margin of the card page with a special glue method, allowing for easy leafing. This way both the front and back of the stamp can be viewed, without having to remove it from the protective sheet. This is the typical LINDNER-T system trait. The high quality of material and production ensure an especially simple and easy handling of the stamps, without having to worry about damage. All pages of the LINDNER-T system have 18-ring hole punch, which gives them a sturdy hold in all LINDNER ring binders with 18-ring mechanism. LINDNER ring binders can be found on pages 64-65.

LINDNER-T ILLUSTRATED COUNTRY ALBUMS

Illustrated stamp pages were developed for those collectors who like to collect certain or several countries, with the entire stamp issue years. The stamps are depicted on the card pages and provide a fixed place for the stamps. This helps to completely portray each issue. Our co-workers in the LINDNER philatelic department collect and process issued stamps of over 150 countries for you. For those who collect internationally, there is no way around using our illustrated pages. They ensure that our collector owns the complete collection.

Stamps will illustrate events of a country, they inform you about parts of the world, organizations and communities, allow insights into cultures and tell of highlights in history, politics and science. Stamps allow you to experience international events up close.

The illustrated pages provide anticipation for stamps which have not yet been issued, and tell you which stamps still need to be found. Place the stamp in the allotted spot in the foil sheets. You can lay the stamp directly over the stamp illustration on the page. The stamp now lies entirely protected by the sheet foil. Each year supplements for the illustrated are issued for the previous year, ensuring that your collection is always up to date.

LINDNER DOUBLE-T ILLUSTRATED PAGES

The LINDNER double-T illustrated stamp pages were developed for collectors, who wish to collect the new stamps as well as used stamps and do not want to purchase two sets of illustrated pages. The stamps are depicted on both back and front side of these card pages. The foil sheets are glued on both front and back of the page, so that you can keep the new stamps on the front side and used stamps on the back.

The beginnings of the album productions in Schömberg around 1950.

LINDNER T-BLANK AND LINDNER DT-BLANK SYSTEM FOR THE TOPICAL OR THE CREATIVE INDIVIDUAL COLLECTOR

This system offers countless possibilities for the individualists and creative collectors who like to design their own stamp collections. Unlike the illustrated pages, these pages are not printed but remain blank. The LINDNER T-Blank system has over 80 different page variations with different foil sheet strips for an individual set up of stamp collecting. An advantage in the LINDNER T-Blank System is that the stamps can always be removed or the page newly arranged. The page will not be damaged and can be used to design a new collection.

New to the LINDNER T-Blank system are the LINDNER dT-Blank pages. Already known from the illustrated pages a selection of the "dT" version is now also available in the blank system without any illustrations. Characteristic to the "dT" (= double T)" version are the foil sheets on the front and the back of each page. This gives you twice as much space for your stamps on one page.

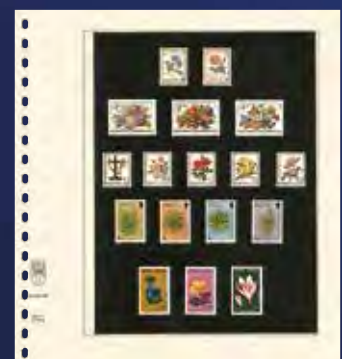

For collectors that like to add text or pictures, we offer the LINDNER write-up pages with many possibilities of use. The write-up pages can be designed by hand or on the computer and are then placed between the card page and foil sheet page, turning each page into an individual eye-catcher. The size of the mark-up pages corresponds to the different kinds of T-Blank pages.

LINDNER PAPER QUALITY

All LINDNER systems use the exclusive PERMAPHIL®-paper, which protects a stamp collection from the aging process and harmful environmental influences for decades.

Impressive facts about our PERMAPHIL®-paper:

- a pH value of more than 7.5 which makes it acid free
- age resistant due to a low calcium carbonate content
- free of optical brighteners
- free of acid-forming components
- bleached without chlorine
- firm album quality

INSERTS FOR WRITE-UPS

The write-up page is placed between the sheet and the album page. It can be removed at any given time and either supplemented with text and picture or replaced with a completely new write-up page. The black lettering pages are optimal for contrasting stamps which are exceptionally beautiful in form and color.

INSERTS FOR WRITE-UPS

The “write-up” sheet is placed between the plastic film sleeve and the album page. They cost only a few cents per page and come in black or white. The black sheets are designed for collectors who prefer to have a black background behind the stamps. The contrast makes perforations, colors, and the beauty of the featured stamps stand out. The white blank sheets can be used to add any text, pictures, or illustrations to the sheet and can be replaced or exchanged at any time.

LINDNER-T freestyle

Design your own individual collection with all advantages of our LINDNER-T system!

Our renowned LINDNER T-Blanko page foil sheets, with self-adhesive strip on the left side.

Three easy steps to create your own individual T-Blank page with Freestyle:

1. Determine the exact position for the foil on your sheet.
2. Remove the protective sleeve from the adhesive on the back of the foil.
3. Place the foil at the previously determined position and press it firmly to the album page.

- Protection on both sides of the stamp.
- Clear view of stamp.
- Stamp can be viewed on both sides without having to remove it from its protective case.
- Secure fixing of the stamps by gentle clamping of the foil seams.
- LINDNER-T freestyle can be integrated into most available collecting systems, thus offering the possibility to easily add or enhance an already existing collection, regardless of which type of collection system is being used.
- Choose the page format and how you want the LINDNER-T freestyle sheets to be positioned. Design your album pages just as you like it, then simply fix the LINDNER-T freestyle foil sheets.
- For an even more flexible collection design, use our LINDNER-T Blank mark-up pages, which fit the LINDNER-T freestyle foil pages exactly. First design the mark-up pages as desired, then place them between the foil sheet and the album page. This will have the advantage of being able to remove the mark-up page and re-use the album page again.

MULTI COLLECT

VERSATILE COLLECTING WITH OUR MULTI-TALENTED SYSTEM.

Versatile collecting with our multi-purpose album system. This Album rightly deserves its name – every collector can find a large assortment of pages with a wide variety of pocket sizes which cater to different types of collections.

Whether you collect stamps, sheetlets, FDCs, ETBs, year books, booklets, postcards, banknotes, coins or phone cards: Our Multi Collect System has a place for everything! The typical 4-ring mechanism of the padded Multi Collect System guarantees a easy handling, and the ring binder Multi Collect and PUBLICA M impress with a large capacity. A plastic window on the spine provides space for identification labels/description of contents. We offer ring binders which differ in size, color, and storage capacity.

For matching ring binders and ready-to-use albums please see pages 72-73.

MULTI COLLECT PAGES

The **one-sided**, crystal clear Multi Collect pages made of softener and acid-free hard PVC foil. You can view front and back of the items that are placed in these pages.

The **double-sided**, black Multi Collect pages are made of archival safe Hard PVC that is free of acids and chemical softeners to ensure long term preservation and presentation.

Our crystal clear coin pages provide neat and safe storage of your coin collection. Simply remove the plastic strip from the page and insert the coins in the individual compartments. Once it is filled, insert the strip back into the page – that's it! The pages are easily removed, added, or changed.

Multi Collect pages are approx. 210 x 255 mm
Coin pages are a bit smaller – approx. 202 x 252 mm

LINDNER LETTERSCOPE

The LINDNER Letterscope reveals watermarks and embossings on envelopes, cards, and stamps quite easily. Damage, repair, or thin spots are also detected. No serious collector should be without a LINDNER Letterscope! Also suitable for the collectors of banknotes. Handling of this device is practical and easy. Light falling through the top of the viewing area will show a light watermark on a dark background. Light falling through the open end nearest the viewing area will expose a dark watermark on a light background. No batteries or electricity is needed! The box containing the Letterscope contains the special foil and operating instructions.

Take a "big" look at small things on your computer screen.

Version V5!

NEW!

LINDNER digital USB microscope

In many situations it is quite important to see even the smallest detail. Variations from the original, small details, micro script or damages which often cannot be seen by the naked eye – are no problem at all for the USB microscope. View with ease at the computer screen what was hidden before. With the help of the included software you can easily take pictures and videos of your new knowledge which can then be documented and saved. There are no limits of the application areas in which the USB microscope can be used, no matter if you use it for your hobby, profession, at school or just of pure interest for fine details! Use the microscope as a hand-held unit or as a standing unit with the included stand.

IMPORTANT INFORMATION FOR THE LINDNER-T ILLUSTRATED COUNTRY ALBUMS AND SUPPLEMENTS

ILLUSTRATED PAGES

Illustrated album pages provide a full and complete overview of each country's issued stamps. LINDNER uses an acid-free, age resistant, and archival paper called "PERMAPHIL®"; the size is 272 x 296 mm. The firm, wood-free paper has an 18-hole perforation to fit all the original LINDNER 18-ring binders shown on pages 64-65.

Some of the LINDNER-T illustrated country albums are printed in full colour. The selection of illustrated albums in colour range from Germany, Berlin, France, Great Britain, Netherlands, Austria, Switzerland to Spain. These album sets are specially marked in the following index.

SUPPLEMENTS

Listed on pages 111-114 are the yearly supplements for all LINDNER-T illustrated country albums. They are published in the early summer of each year and contain the supplement pages for all stamps issued in the previous calendar year. Stamp collections can be kept up-to-date and the continuous quality of the supplements guarantee a perfect match to the pages previously purchased.

NUMBER OF PAGES

In the following index, the number of pages is the actual amount of illustrated album pages in one set (title pages excluded). However, all sets contain title pages and are included in the price.

SINGLE PAGES

Every LINDNER-T illustrated album page can be purchased individually. Please provide exact order information including album number, page number and year since single pages can not be exchanged or returned.

Example: 1 x T 120 b/49 pages 15, 16, 17 year 1959.

We recommend: Before purchasing a large amount of single pages, check if it is less expensive to obtain a complete set instead of individual years. Please contact us if you need assistance.

LINDNER SINGLE PAGE INDEX

The page index lists the year as well as the MICHEL numbers and/or the catalog numbers for each illustrated page. The LINDNER-T page indexes starting in January 2000 can be found on the internet under www.lindner-original.de in the section "Downloads". For each area of interest you can obtain the retrospective years on request.

Important:

The following tables contain the supplement pages 2014.

The supplements for 2015 will be issued in spring 2016.

The supplements for 2016 will be issued in spring 2017.

For further information or questions please contact our sales representatives at +49 (0) 7427/701-25 or send an e-mail to info@lindner-original.de
